

Education unlocks climate action

- Slideshow for Educators

Activity – Why do we need climate education?

**How have you
found
out this
information?**

**Which of your ideas are
facts? Which are
thoughts or feelings?**

**Do you think it is
important for young
people to learn about
climate change?**

**Do you have any
questions that
you would like to ask
about climate change?**

Why do we need climate education?

Many young people want to learn more about climate changes and what they can do to help.

Governments promised to do more to help young people learn about climate change when agreeing to the 2015 Sustainable Development Goals.

Educating everyone on the planet could help to reduce global carbon dioxide emissions by 68.9 gigatons!

Education can help people to develop green technologies.

Why do we need climate education?

Schools all over the world are taking action to reduce their carbon footprints.

Millions of people across the world are being affected by climate change and we need to take action now.

Education can help people prepare for and respond to climate-related disasters such as flooding and droughts.

Many young people are worried about climate change. Talking can help them to feel less anxious.

Activity – How are young people taking climate action?

How can education help people to take climate action?

**Young people
have to work
together to
push for the
cause**

**Connect your
actions to the
kind of world
you want to
live in**

**With the
involvement
of young
people,
everything is
possible**

**Do the best
you can with
what you
have**

How is climate change affecting the life of this young person and their community?

How is this young person taking action against climate change?

How are they encouraging other people to take action?

What advice do they have for other young people wanting to take climate action?

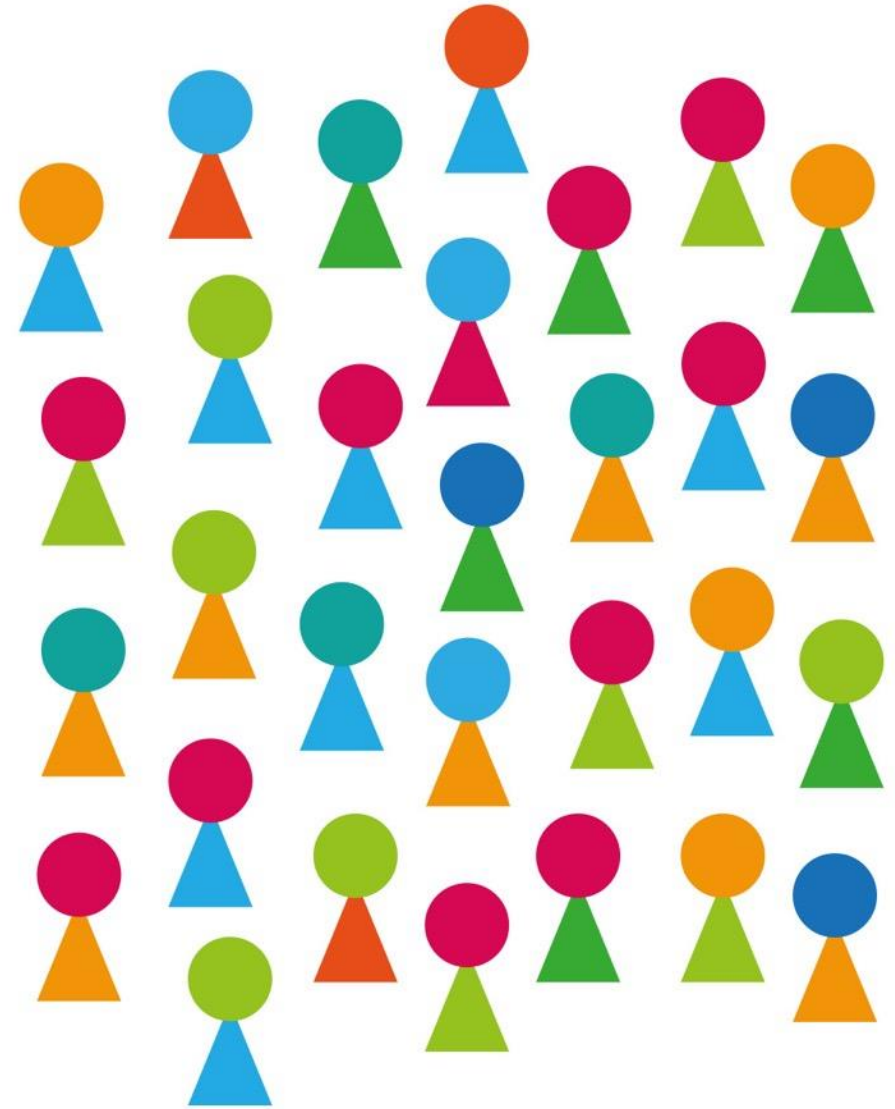

**What questions would
you like to ask these
young people?**

**What do you think
and feel after
reading these
stories?**

**How could you help
others in your school or
community to take
climate action?**

Activity – Education unlocks climate action

**How can we work
together to use
education to take
climate action?**

Who could you influence?

How could you raise awareness about climate change?

How could you encourage others to take action?

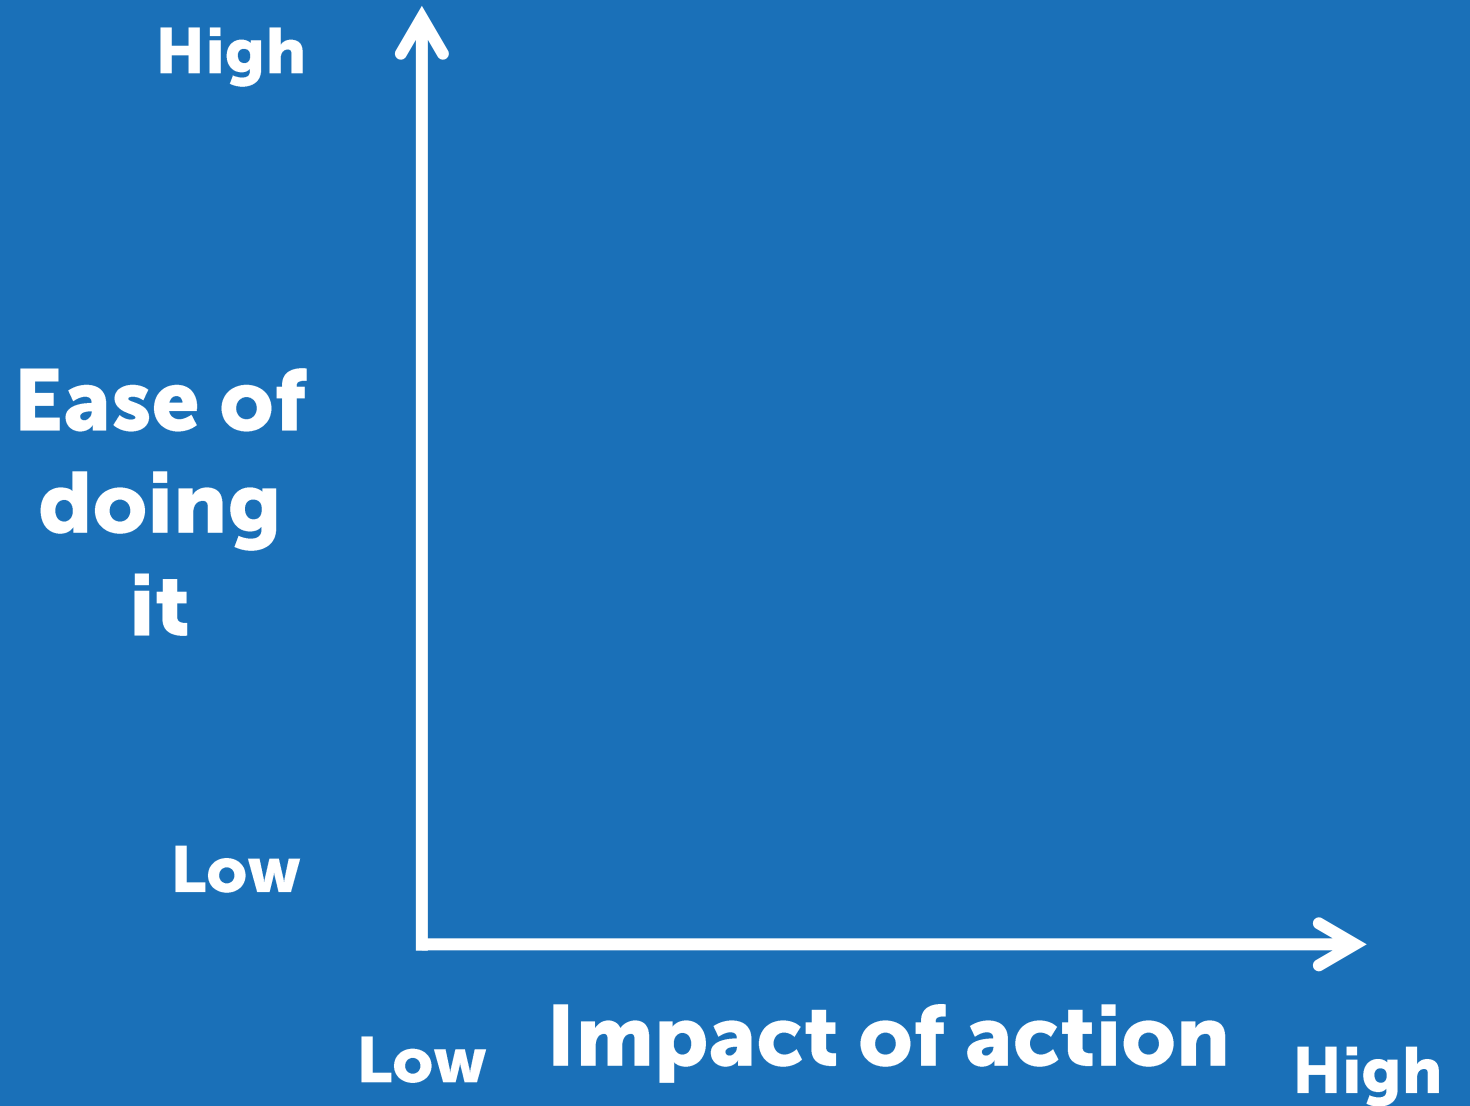

How could you let others know why climate education is important?

Activity – Creating our climate action plan

Create your climate action plan!

- How will you carry out this action?
- What support will you need to do it?
- Who will do it?
- When will you do it by?
- How will you measure how successful the action is?

Impact matrix

Create your climate action plan!

- **How will you breakdown this action into steps?**
- **Who will be responsible for doing it?**
- **What resources and support will you need?**
- **When will you do it by?**
- **How will you measure how successful the action is?**
